

Instructions for eliminating the internet browser from the Blackberry

- 1) In the zip file you received there are 4 files:
 - a. Erase.cmd
 - b. Javaloader.exe
 - c. A sign to hang up
 - d. The 'Guard Your Eyes' Handbook
- 2) Save the Zip onto your desktop or laptop computer and extract the files.
- 3) Plug your Blackberry into the computer.
- 4) Make sure your Blackberry comes up on the computer, and then press on the file Erase.cmd to run the program.
- 5) After a short while your Blackberry will shutdown and reboot, and it will no longer have the internet browser.
- 6) Press any key on your keyboard to close the program.
- 7) You can then delete the software files from your computer.

For any questions, feel free to write to: deletebrowser@gmail.com.

For those who may have stumbled in the past, the 'Guard Your Eyes' Handbook is very important to read to help us maintain the moral high ground in today's difficult world.

Be mezakeh the rabbim and send around this Zip file to other Yidden, and hang up the sign in your Beis Medrash, Shtiblach and Office.

Hatzlacha Rabba!
